**Subject:** Shameful Abuse of Microsoft

As a discriminating consumer, I would like to see an end to the Anti-Trust abuse in which Microsoft has so long been ensnared.

We should applaud, rather than condemn, Microsoft, who has so steadfastly provided handsome compensation to so many, as a result of superb design, marketing and distribution.

I say, leave Microsoft alone, so it more continue, without distraction of chastisement and penalty, to represent itself as a glowing illustration of American Capitalism!
